

**INTERNATIONAL TECHNICAL ASSURANCE**

*"BRINGING QUALITY AND PEOPLE TOGETHER"*

**SERVICE PROMOTION CIRCULAR No. 02/2021, Date: 18/06/2021**

**Subject: "International Technical Assurance INTECA ("Bringing Quality and People Together") – Commencement of Business Proceedings"**

**Summary:** The current Service Promotion Circular reports upon the commencement of business proceedings of INTECA. INTECA is a Hellenic private entity based in Piraeus, Greece, working with the objective of supporting businesses capture normative quality compliance within the non-marine and marine sectors.

**1. INTECA's management, staff & stakeholders proudly announce the **official commencement of business proceedings**,** as independent and reliable experts for the provision of quality related inspections, audits and verifications both for services and product supply chains operating out of the heart of Piraeus maritime cluster.

**2. INTECA focusing on quality compliance:** is a Hellenic private entity based in Piraeus, working with the objective of supporting businesses capture normative quality compliance within the non-marine and marine sectors (<https://en.inteca.gr>). INTECA also delivers specialist third-party auditing and conformity assessment services across a wide spectrum of ISO related standards through high-profile synergies and collaborations with accredited certification bodies.

**3. Quality Reimagined:** INTECA works with its clients to capture high quality deployment across their entire operational context and supply chain. By shaping quality systems and core processes, we promote establishing quality as a driver of corporate value development. Simply stated, we connect people and companies with their quality objectives and aspirations.

**4. Services' overview:** We audit, test and verify against a broad context of standards within the non-marine and marine sectors, both for the private and public institutions. INTECA collaborates with service providers and product manufacturers. In addition to our conformity assessments, INTECA also delivers customised training programs and specialised advisory and consultancy services, for a variety of business assurance and quality compliance matters.

**5. Strategic Approach:** We believe that carrying out the consistent processes in accordance with the good practice examples through accredited conformity assessment, has the potential to keep malfunctions and disruptions to a minimum, control costs and encourage innovation, and guide manufacturers. It also assures consumers by maintaining consistently high standards in the quality of products and services. INTECA's management and staff are committed to actively contribute towards the strategic objective that accreditation serves a "Responsible Consumption and Production" sustainable development goal.
